AUGUST 2018

Codelocks Inc. continues to grow

Irvine, California, 07 August 2018

Two new sales representatives have joined long-standing lock manufacturer, Codelocks Inc. as it further expands throughout North America. The new representatives, Len Stoia and Bruce Lindstrom, come to Codelocks Inc. with a wealth of experience in the lock and security market. They join the existing representative base to make Codelocks Inc.'s products more widely available for customers across the North American region.

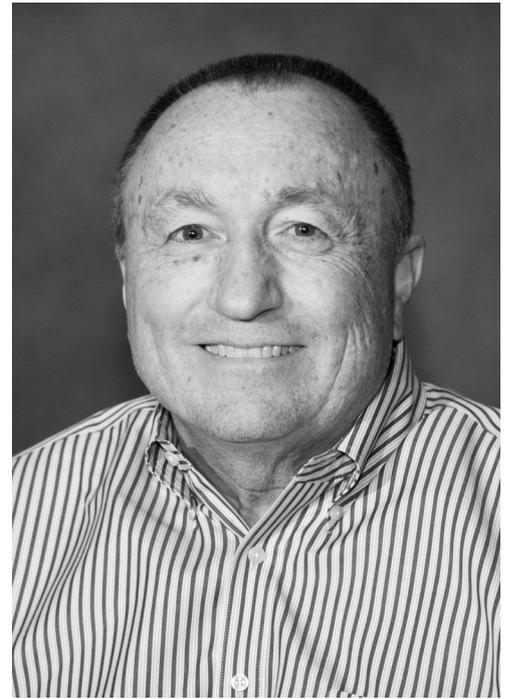

Len of Midwest Security Sales Inc, will cover Northern Illinois, Northern Indiana, and Wisconsin and Bruce of LindTec Solutions, will cover New York and New England. Their addition to the sales representative team serves to fortify Codelocks Inc.'s presence within North America as it continues to grow and expand throughout the US market. Len and Bruce will be working alongside new General Manager, Matt Welty, who is responsible for company development and driving growth throughout the market.

Commenting on these new appointments, Matt said: "Len and Bruce will be a great asset to Codelocks as we launch our KeySecure product line in addition to other new products from Codelocks. We welcome these two industry experts enabling us to continue to provide service to our customers that exceeds their expectations."

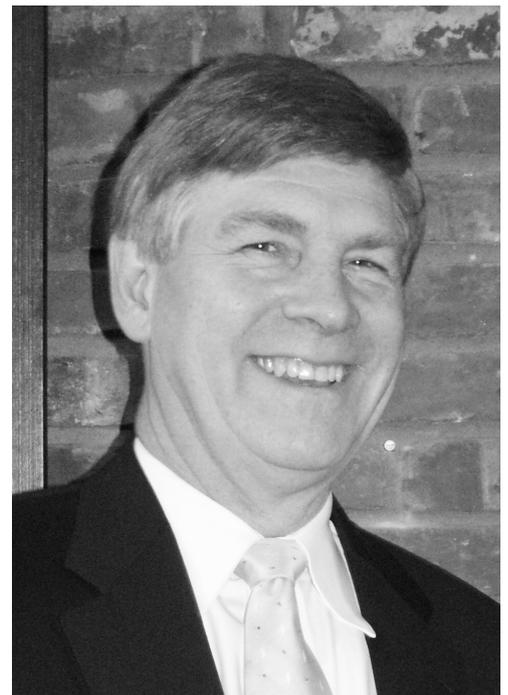

Len has been involved in the door hardware and security market for a considerable number of years. During that time, he has developed an impeccable reputation for follow through, customer service and problem-solving for his accounts.

Similarly, Bruce has a distinguished career in the security and lock business having worked for security manufacturers, products distributors, system designers and installers. His reputation and networking capabilities will be advantageous for Codelocks in developing new opportunities with Bruce's business contacts within New England and New York.

Codelocks Inc.'s sales representatives now serve New Jersey, Illinois, Colorado, California, Florida, Toronto and Virginia.

ABOUT CODELOCKS

CodeLocks designs and manufactures a wide range of innovative, standalone keyless door, locker and cabinet locks for organizations that need to control access within their buildings. The product range includes stylish push-button mechanical locks, digital electronic and wireless 'smart' locks that are easy to manage and can be operated using a keypad, card and smartphone. Convenience is at the heart of all of CodeLocks' products. Our user-friendly approach enables building and facilities managers to have complete control over who is entering and exiting. The locks are cost-effective, easy to fit and program, can be retrofitted and do not require complex wiring or external power. We offer full access to expert technical advice and customer support.
